

SBAC Tech Skills: Grades 3 & 4

[Click here to take the Practice SBAC Test](#), then click SIGN IN and navigate through login screens.

In third and fourth grade, there are several technology skills that can be taught to better prepare students for the Smarter Balanced (CCSS).

These skills include:

- Mouse Practice
- Keyboarding
- Navigation
- Drag & Drop

Mouse Practice

Download: [Mouse Practice Lesson](#)

Skill	Activities and Description	CCSS
Scroll Practice	Students will visit Scroll Practice and follow directions to practice using the mouse. Using Math Maven students are expected to apply their mouse skills by scrolling through prompts to solve the math mystery and answer the question.	Math (3.OA.D.8) (4.OA.A3)
Highlight Text	Using Highlighting Text students will wear headphone, listen to the directions and practice highlighting text. Students will visit Grade 3 Proofreading Makes Perfect and Grade 4 Proofreading Makes Perfect to practice correcting grammar, spelling usage, and punctuation. Students will need to practice highlighting text, and placing cursor in specific locations in the text.	ELA (L.3.1,L.3.2) (L.4.1,L4.2)
Mouse Clicking	Students will play Mouse Clicking to improve the speed and	ELA (RF.3.3)

	accuracy of mouse clicking. Using Spelling Bees students will practice their speed and accuracy of using the mouse.	(RF.4.3)
