SANTA CRUZ CITY SCHOOL DISTRICT

AGENDA ITEM: Contract: Proposal for 2024-25 Demographics and Enrollment Projections Service

MEETING DATE: January 31, 2024

FROM: Jim Monreal, Assistant Superintendent, Business Services

THROUGH: Kris Munro, Superintendent

BACKGROUND:

Staff are bringing forward a proposal from SchoolWorks, Inc. to research and develop both short and long-term enrollment projections for SCCS. In 2022, FCMAT, the State's Fiscal Crisis and Management Assistance Team, projected a 17% decline in enrollment for Santa Cruz County Schools. Over the course of the spring of 2023, new information was released about Santa Cruz County's sixth Regional Housing Needs Assessment and the City of Santa Cruz provided District staff with detailed plans on the City's housing development over the next five years. Enrollment for the 2023-24 school year came in higher than projected.

The attached proposal includes six-year district and individual school enrollment projections. The proposal considers anticipated changes from the recent "TK for All" initiative, new housing developments, bond projects, as well as county and state data. District staff utilizes these projections to inform future budget and facilities planning. SchoolWorks will also update the District's online locator to match recent boundary changes.

FISCAL IMPACT:

\$14,500, Capital Facilities Funds (Restricted)

This work is in direct support of the following district goal and its metrics:

Goal #5: SCCS will maintain a balanced budget and effective and efficient management.

Santa Cruz City Schools

Ste. 100
Santa Cruz, CA 95060-3754

Thank you for the opportunity to present this Proposal for the 2023/2024 Demographics and Enrollment Projection Service. SchoolWorks has worked with over 100 school districts on Demographics over the past three years. Many of these districts request an annual update each year.

Demographics and Enrollment Projections help establish guidelines designed to ensure the District’s school facilities are able to accommodate and support its current and future enrollment. SchoolWorks provides a total comprehensive analysis. The district-wide and school-specific enrollment projections are meant to serve as a planning tool to help with both long-term and short-term planning. Our services help identify certain facility planning requirements such as capacity utilization of existing facilities, planning for modernization or new construction, and attendance boundary analysis or redistricting.

This report will include the anticipated growth in the Transitional Kindergarten (TK) Program to reflect the recent “TK for All” initiative which will allow a phased plan for all 4-year-olds to attend TK over the next two years. Planning ahead for the growth of the TK Program will help the District determine which sites will be the most impacted by the growth in TK and which sites are projected to have the largest TK population.

Proposal Includes:

- Collaborate with the District staff throughout the project
- Six-year district and individual school enrollment projections
- Attendance boundary demographics trend analysis
- Classroom utilization analysis
- New housing impacts & yield rate study
- Draft/Final documentation in electronic form
- Total fee proposal of **\$14,500**

Scope of Service

ENROLLMENT PROJECTIONS

This Demographics and Enrollment Projections provides a comprehensive enrollment analysis. The district-wide and school-specific enrollment projections are meant to serve as a planning tool to help with both long and short-term planning. Demographic Studies examine the factors that influence school enrollments, namely trends in demographics, birth rates and housing development.

The study is also used as a tool to identify certain facility planning requirements such as capacity utilization of existing facilities, planning for modernization or new construction and attendance boundary redistricting.

This study provides information based on the 2023/2024 District enrollments and programs, local planning policies and residential development. As these factors change and timelines are adjusted, the Demographic Study should be revised to reflect the most current information.

METHODOLOGY

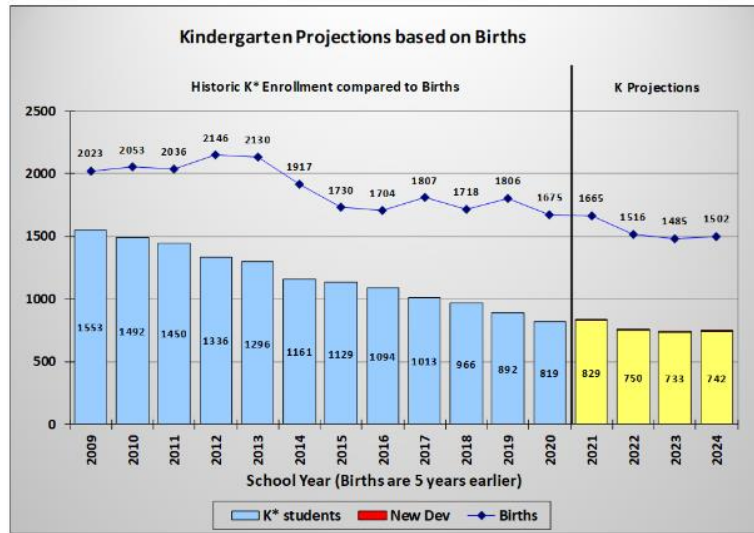

The enrollment projections for each school are generated using a State standard weighted cohort trend analysis. The basic projections are created by studying the individual geographic areas. The school attendance base projections are created using the following procedures:

- ❑ **Neighborhood School Attendance Area Analysis:** Each school attendance boundary will be input into our GIS (Geographic Information Systems) Software. Students are counted in each of the attendance area boundaries based on their residential address and can be studied to view optimum and balanced utilizations. Attendance pattern maps for each individual boundary will analyze impacts of intra-district transfers from within the district boundary, as well as inter-district transfers from neighboring school districts.

- ❑ **Inter-district** student counts are not included in the base geographic trend analysis since these students reside outside of the District. Therefore, the current number of students-per-school and students-per-grade are added to the base projections.
- ❑ **Intra-district** students are those who transfer from one school to another. The number of students transferring into and out of each school are calculated and used to determine the difference between the projections for students living in each attendance area versus those that are projected to attend the school.
- ❑ **Cohort Trend Analysis:** The number of students living in the boundary are used to generate the cohort factors. The weighted average of the three years is determined with the current year weighted 50%, the prior year 33.3% and the third year 16.7%. This gives the current trends more value in determining the projections. Those cohorts are then used to determine the students who will be residing in each attendance area for the following years.

- Birth Rate Analysis:** Birth rates are used to project future kindergarten enrollment. It is assumed if the births indicate there was an increase of 4% one year, then there will be a corresponding 4% increase in the kindergarten class five years later.

*Kindergarten Totals may include some Transitional Kindergarten students for some of the past years to more accurately correlate a 12-month period of births to a 12-month period of enrollment.

- Housing Development and Yield Rate Study:** New housing development can have a significant impact on future facility and demographic planning. A complete analysis of all current and future new housing developments will be researched by working with city, county and other local municipalities. A student yield rate analysis will also be conducted using the most current Census data. New housing development rates and yield factors are compared to the historical impact of development and if the future projections exceed the historical values, the projections are augmented accordingly.
- “TK for All” Initiative:** The report will model the growth projected for Transitional Kindergarten in alignment with the recent “TK for All” initiative which follows a phased plan to allow all 4-year-olds to attend TK by 2025/26. This includes the assumption that TK will be offered at all sites that currently house K students. The expansion for TK enrollment is based on the following schedule:
 - 2023/24 – 7 months (Eligible)
 - 2024/25 – 9 months (Adds 2 months)
 - 2025/26 – 12 months (Adds 3 months)
- District Special Education and Alternative Programs:** The projections for special education students and alternative programs are created by assuming those programs typically serve a percentage of the total District population. Therefore, as the District grows or declines, the enrollment in those programs would increase or decrease accordingly.

❑ **Site Capacity and Utilization Analysis:** By reviewing current district loading standards and how many available classrooms are situated at each school site, we can determine which schools have room for growth, which schools are over-crowded or which school sites may need to be considered for boundary changes or grade level reconfiguration. The classroom counts may not represent the current classrooms being used, as there may be unused rooms on the school site. In some cases, there may be fewer classrooms counted than current teaching stations if some of the rooms being used were designed for other purposes but are currently being used as classrooms due to overcrowding. The purpose of the classroom count and capacity are to show what the school capacity should be if all teaching spaces are being used in accordance with the educational programs of the District.

SCHOOL EXPLORER

Attendance areas are defined as geographic boundaries around a school which include specific residential addresses. School Explorer is a web-based application intended to provide general information and assign neighborhood elementary, middle, and high schools based on a specific valid residential street address.

School Explorer is intended to be used as a tool that provides school assignment information based upon a specific valid address. If you do not know the specific address, or if it cannot be found, just click anywhere on the map to find the schools for that neighborhood.

The information provided by School Explorer is intended to only be used as a guideline and is not a final determination of school assignments. The accuracy of address mapping may vary and is not a guarantee. While our team makes every effort to ensure all search databases are up-to-date, the user should not assume results provided by School Explorer are a guarantee of placement at a particular school. It is recommended that final school placement determination be verified by a School District representative.

AGENDA ITEM: CSBA for Board Policies First and/or Final Reading

MEETING DATE: January 31, 2024

FROM: Kris Munro, Superintendent

RECOMMENDATION:

Approve the revised/deleted/new policies as submitted for first and/or final reading and adoption.

BACKGROUND:

Policies are submitted through the GAMUT online board policy book updating process, which uses CSBA recommendations for review and change approximately six times per year in participating districts. These recommendations reflect recent changes in education code and/or case law.

The policies have been reviewed by staff to ensure that any required customization for Santa Cruz City Schools has been included. The Policy Guidesheet provides a basic overview of the policy changes.

This work is in direct support of the following district goals and its corresponding metrics:

Goal #1: All SCCS students will be prepared to successfully access post-secondary college and career opportunities.

Goal #2: SCCS will create positive, engaging school environments that promote the development of cognitive skills and the social emotional well-being of all students.

Goal #3: We will eliminate the achievement gap the currently exists between demographic groups within the SCCS student community.

Goal #4: We will develop a highly collaborative, professional culture focused on supporting effective teaching.

Goal #5: SCCS will maintain a balanced budget and efficient and effective management.

Goal #6: SCCS will maintain strong communication and partnerships with its diverse community.

CSBA POLICY GUIDE SHEET
December 2023

Note: Descriptions below identify revisions made to CSBA's sample board policies, administrative regulations, board bylaws, and/or exhibits. Editorial changes have also been made. Districts and county offices of education should review the sample materials and modify their own policies accordingly.

Board Policy 0460 - Local Control and Accountability Plan

Policy updated to reflect **NEW LAW (SB 114, 2023)** which (1) requires numerous changes to the local control and accountability plan (LCAP) for use in the 2024-25 school year, and (2) adds "long-term English learners," defined by **NEW LAW (SB 141, 2023)** as a student who has not attained English language proficiency within seven years of initial classification as an English learner, as a numerically significant subgroup. Policy also updated to add headers for clarity, align the structure of the policy with the LCAP process, and clarify references to the annual update and budget overview for parents/guardians.

Board Policy 0500 - Accountability

Policy updated to reflect that the U.S. Department of Education declined the California Department of Education's (CDE) waiver request that would have allowed for the continued use of modified methods for calculating the Academic and Graduation Rate Indicators, resulting in the California School Dashboard no longer including any modified methods applied to state indicators and all Dashboard Alternative School Status schools being treated the same as all other schools on the Dashboard. Policy also updated to reflect **NEW LAW (SB 114, 2023)** which (1) adds "long-term English learners," defined by **NEW LAW (SB 141, 2023)** as a student who has not attained English language proficiency within seven years of initial classification as an English learner, as a numerically significant subgroup, (2) creates a new basis for technical assistance when the district fails to meet specified data submission requirements, and (3) specifies when the California Collaborative for Educational Excellence (CCEE) will consult with the district and any provider of technical assistance to determine if assistance from CCEE is necessary.

The Board shall adopt a districtwide local control and accountability plan (LCAP) and an annual update to the LCAP, based on the most up-to-date template adopted by the State Board of Education (SBE), that addresses the state priorities in Education Code 52060 and any local priorities adopted by the Board. The LCAP and the annual update shall be adopted or updated, as required, on or before July 1 of each year and, like the district budget, shall cover the next fiscal year and two subsequent fiscal years. The IDEA addendum shall be developed, reviewed, and approved in conjunction with and in the same manner as the LCAP and the annual update to the LCAP, and shall be submitted to CDE within 15 days of adoption by the Board. (Education Code 52064.3)

The Governing Board desires that all district schools provide a high-quality educational program that maximizes the achievement of each district student. The district shall provide assistance to schools to support the continuous improvement of student performance within the priorities identified in the district's local control and accountability plan (LCAP) and to enhance the achievement of low-performing student subgroups.

At its discretion, the Board may submit a request to the County Superintendent of Schools for technical assistance regarding the following: (Education Code 52071)

1. Identifying the district's strengths and weaknesses in regard to state priorities addressed in the LCAP, including collaboration between the district and County Superintendent to review performance data on the state and local indicators included in the California School Dashboard, **educator qualifications data**, and other relevant local data and to identify effective, evidence-based programs or practices that address any areas of weakness
2. **Identifying student subgroups that are low performing or experiencing significant disparities from other subgroups as identified on the California School Dashboard in order to identify and implement effective programs and practices to improve the outcomes and opportunities for these students**
3. **2** Securing assistance from an academic, programmatic, or fiscal expert, or team of experts, to identify and implement effective programs and practices that are designed to improve performance in any areas of weakness identified by the district
4. **Identifying areas of strengths and weaknesses in the identified goals, actions, and services addressed in the LCAP, with a particular focus on those areas considered to be contributing toward meeting the increased or improved services requirement and all required goals**
5. **Reviewing the district's data management policies and collection and submission processes, including monitoring and oversight of the student information system, to ensure the submission of accurate data according to the processes and timelines established by the California Department of Education (CDE)**

In the event that the County Superintendent requires the district to receive technical assistance based on a determination that one or more numerically significant student subgroups in a district school meet the performance criteria established pursuant Education Code 52064.5, the **Board** district shall **work**, for a minimum of two years, maintain regular communication with the County Superintendent, and shall provide the County Superintendent timely documentation of **to, the County Superintendent regarding** the district's completion of the activities listed in **items** Items #1-**25** above, or substantially similar activities. (Education Code 52071)

With the approval of the County Superintendent, the The district may, at its own expense, engage another service provider, including, but not limited to, another school district, the county office of

education, or a charter school, to act as a partner to the district in filling the district's need for technical assistance. (Education Code 52071)

If referred to **The district shall consider any recommendations from** the California Collaborative for Educational Excellence **by either the County Superintendent or the Superintendent of Public Instruction (SPI), the district shall implement the recommendations of that agency** in order to accomplish the goals set forth in the district's LCAP. (Education Code 52071, **52072**, 52074)

If the **SPI Superintendent of Public Instruction (SPI)** identifies the district as needing intervention, the district shall cooperate with any action taken by the SPI or any academic advisor appointed by the SPI, which may include one or more of the following: (Education Code 52072.1)

1. Revision of the district's LCAP
2. Revision of the district's budget, in conjunction with changes in the LCAP, that would allow the district to improve the outcomes for all student subgroups in regard to state and local priorities
3. A determination to stay or rescind any district action that would prevent the district from improving outcomes for all student subgroups, provided that action is not required by a collective bargaining agreement

In addition, any school identified by **the California Department of Education CDE** for comprehensive support and improvement, targeted support and improvement, or additional targeted support and improvement shall develop and implement a school plan in accordance with 20 USC 6311. Such schools may be required to partner with an external entity, agency, or individual with demonstrated expertise and capacity to identify and implement more rigorous interventions.

The Governing Board recognizes its responsibility to ensure accountability to the public for the performance of the district and each district school. The Board shall regularly review the effectiveness of district programs, personnel, and fiscal operations, with a focus on the capacity to improve student achievement. The Board shall establish appropriate processes and measures to monitor results and to evaluate progress toward accomplishing the district's vision and goals set forth in the local control and accountability plan (LCAP).

District and school performance shall be annually evaluated based on multiple measures specified in the California Accountability and Continuous Improvement System as reported on the California School Dashboard.

~~The district's alternative schools serving high-risk student populations, including continuation high schools, opportunity schools, community day schools, and nonpublic, nonsectarian schools pursuant to Education Code 56366, shall be subject to an alternative accountability system established by the Superintendent of Public Instruction. (Education Code 52052, 56366)~~

The district and each district school shall demonstrate comparable improvement in academic achievement for all numerically significant student subgroups. Numerically significant subgroups include ethnic subgroups, socioeconomically disadvantaged students, English learners, long-term English learners, students with disabilities, foster youth, and homeless students experiencing homelessness, when the subgroup consists of at least 30 students with a valid test score or 15 foster youth, long-term English learners, or homeless students experiencing homelessness. Opportunities for feedback from students, parents/guardians, staff, and community members shall be made available as part of any review and evaluation of district programs and operations and as part of the development or annual update of the LCAP.

Evaluation results may be used as a basis for revising district or school goals, updating the LCAP or other comprehensive plans, identifying and developing strategies to address disparities in achievement among student subgroups, implementing programmatic changes, determining the need for additional support and assistance, awarding incentives or rewards, and establishing other performance-based consequences.

The district shall accept technical assistance or other intervention that may be required pursuant to Education Code 52071 or 52072. If the County Superintendent of Schools is required to provide technical assistance to the district, the district shall accept the technical assistance by providing

timely documentation to, and maintaining regular communication with, the County Superintendent. (Education Code 52071)

Policy 1431: Waivers

Status: ADOPTED

Original Adopted Date: 07/01/2005 | Last Revised Date: 10/12/01/2019/2023 | Last Reviewed Date: 10/12/01/2019/2023

The Governing Board recognizes that circumstances may arise in the operation of the district that require a waiver from state law or regulation. When it is in the interest of district students, the Board may request that the State Board of Education (SBE) waive any provision of state law or regulation which SBE has authority to waive pursuant to Education Code 33050.

Any waiver request to be submitted to SBE shall first be approved by the Board. The Superintendent or designee shall ensure that each proposed waiver request includes all information necessary for the Board to analyze the need for the waiver and make an informed decision.

If the proposed waiver request affects a program that requires the existence of a school site council, the Superintendent or designee shall obtain the school site council's approval of the request before presenting it to the Board. As appropriate, other councils or advisory committees, including bilingual advisory committees, shall be provided adequate opportunity to review a proposed waiver request, and the request shall include a written summary of any objections to the request by the councils or advisory committees. (Education Code 33051)

In addition, the Superintendent or designee shall consult with the exclusive representative of district employees in the development of the waiver request, and shall include in the request the exclusive representative's position regarding the waiver. (Education Code 33050, 33051)

A request for a waiver related to a regional occupational center or program operated by a joint powers agency shall be submitted as a joint waiver request with other participating school districts upon approval of a unanimous vote of the governing board of the joint powers agency. (Education Code 33050)

To receive public testimony on each proposal for a waiver request, the Board shall hold a properly noticed public hearing during a Board meeting. (Education Code 33050)

The notice, which shall state the time, date, location, and subject of the public hearing and invite public testimony, **may shall** be printed in a newspaper of general circulation, **and/or,** posted at each school and three public places in the district, **or published on the district's website.**

If the district determines that a waiver is needed for more than one year, the Board shall reapply to SBE. When the Board has requested and received the same general waiver from SBE for two consecutive years, the Board does not subsequently need to reapply annually provided that the information contained on the request remains current, except that the district shall apply annually for the renewal of any waiver regarding teacher credentialing. Policy 5131.2: Bullying

Status: ADOPTED

Original Adopted Date: 07/01/2015 | Last Revised Date: 12/01/20192023 | Last Reviewed Date: 12/01/20192023

The Governing This policy shall apply to all acts constituting bullying related to school activity or to school attendance occurring within a district school, to acts which occur off campus or outside of school-related or school-sponsored activities but which may have an impact or create a hostile environment at school, and to all acts of the Governing Board and the Superintendent in enacting policies and procedures that govern the district.

The Board recognizes the harmful effects of bullying on student well-being, student learning, and school attendance and desires to provide a **welcoming, safe, and supportive** school environment that protects students from physical, **mental**, and emotional harm. No individual or group shall, through physical, written, verbal, visual, or other means, harass, sexually harass, threaten, intimidate, cyberbully, cause bodily injury to, or commit hate violence against any student or school personnel, or retaliate against them for filing a complaint or participating in the complaint resolution process.

The Superintendent or designee shall develop strategies for addressing bullying in district schools with the involvement of students, parents/guardians, and staff. As appropriate, the Superintendent or designee may also collaborate with social services, mental health services, law enforcement, courts, and other agencies and community organizations in the development and implementation of effective strategies to promote safety in schools and the community.

Such strategies shall be incorporated into the comprehensive safety plan and, to the extent possible, into the local control and accountability plan and other applicable district and school plans.

Any complaint of bullying shall be investigated and, if determined to be discriminatory, resolved in accordance with law and the district's uniform complaint procedures specified in **AR Administrative Regulation** 1312.3. If, during the investigation, it is determined that a complaint is about nondiscriminatory bullying, the principal or designee shall inform the complainant and shall take all necessary actions to resolve the complaint.

If the Superintendent or designee believes it is in the best interest of a student who has been the victim of an act of bullying, as defined in Education Code 48900, the Superintendent or designee shall advise the student's parents/guardians that the student may transfer to another school. If the parents/guardians of a student who has been the victim of an act of bullying requests a transfer for the student pursuant to Education Code 46600, the Superintendent or designee shall allow the transfer in accordance with law and district policy on intradistrict or interdistrict transfer, as applicable.

District families are encouraged to model respectful behavior, contribute to a safe and supportive learning environment, and monitor potential causes of bullying.

Any employee who permits or engages in bullying or retaliation related to bullying shall be subject to disciplinary action, up to and including dismissal.

Policy 5148.3: Preschool/Early Childhood Education

Status: ADOPTED

Original Adopted Date: 11/01/2012 | **Last Revised Date:** 12/01/20222023 | **Last Reviewed Date:** 12/01/20222023

The Governing Board recognizes the value of high-quality preschool experiences to enhance children's social-emotional development and acquisition of instructional knowledge, skills, and abilities. The Board desires to provide a supervised and cognitively rich learning environment designed to facilitate the transition to kindergarten for three- and four-year-old children.

The Superintendent or designee shall collaborate with the local child care and development planning council, the county office of education, other public agencies, organizations, and/or private preschool providers to assess the availability of preschool programs in the community and the extent to which the community's preschool needs are being met. The Board encourages the development of a comprehensive districtwide and/or countywide plan to increase children's access to high-quality preschool programs.

The Superintendent or designee shall provide information about preschool options in the community to parents/guardians upon request.

To receive preschool services, a child and the child's parent(s)/guardian(s) shall be required to provide evidence of residency in California. However, any person identified as experiencing homelessness shall only be required to submit a declaration that the person resides in California. (5 CCR 17745)

Preschool eligibility determinations shall be made without regard to a child's immigration status or that of the child's parent(s)/guardian(s) unless the child or the child's parent(s)/guardian(s) are under a final order of deportation from the United States U.S. Department of Homeland Security. (5 CCR 17745)

District Preschool Programs

When the Board determines that it is feasible, the district may contract with the California Department of Education (CDE) to provide preschool services in facilities at or near district schools, either directly or through a subcontract with a public or private provider.

District preschool programs shall comply with all health and safety laws and regulations, including, when applicable, licensure requirements pursuant to 22 CCR 101156.

The Board shall approve, for the district's preschool program, a written philosophical statement, goals, and objectives that reflect the cultural and linguistic characteristics of the families to be served and address the program components specified in 5 CCR 17701-17711 and the accompanying administrative regulation. (5 CCR 17701)

The Board shall set priorities for establishing or expanding services as resources become available,

giving consideration to the benefits of providing early education programs for at-risk children and/or children residing in the attendance areas of the lowest performing district schools.

Preschool classroom needs shall be addressed in the district's facilities master plan, including an assessment as to whether adequate and appropriate space exists on school sites. As necessary, the Superintendent or designee shall provide information to the Board regarding facilities financing options for preschool classrooms and/or facilities available through partnering organizations or agencies.

Because parents/guardians are essential partners in supporting the development of their children, the Superintendent or designee shall involve them in program planning.

The Superintendent or designee shall coordinate the district's preschool program, transitional kindergarten program (TK), and elementary education program to provide a developmental continuum that builds upon children's growing skills and knowledge. **In order to provide families with the option of a full-day, high-quality instructional program, the district may enroll children who are in a TK or kindergarten program in a California State Preschool Program (CSPP) before and/or after the regular school day.**

If an early enrollment child is enrolled in the district's TK program, the district shall concurrently offer the child enrollment in the district's CSPP program, subject to available space. (Education Code 48000.15)

A child's eligibility for TK enrollment shall not impact family eligibility for a preschool or child care program. (Education Code 8205, 48000)

The district's program shall be aligned with preschool learning foundations and curriculum frameworks developed by CDE which identify the knowledge, skills, and competencies that children typically attain as they complete their first or second year of preschool. The program shall be designed to facilitate children's development in essential skills in the areas of language and literacy, mathematics, physical development, health, visual and performing arts, science, history-social science, English language development, and social-emotional development.

The Superintendent or designee shall identify dual language learners in district preschool programs, and shall collect and report related data to CDE as required by Education Code 8241.5. The district's preschool program shall include activities and services that meet the needs of dual language learners for support in the development of their home language and English. (Education Code 8203)

The district's preschool program shall serve children with exceptional needs as required by Education Code 8208. Children with exceptional needs attending any CSPP program shall be educated in the least restrictive environment in accordance with 20 USC 1412.

The district's preschool program shall provide appropriate services to support the needs of at-risk children.

To maximize the ability of children to succeed in the preschool program, the program shall support children's health through proper nutrition and physical activity and shall provide or make referrals

to available health and social services as needed.

The district shall encourage volunteerism by families participating in the program and shall communicate frequently with parents/guardians of enrolled children regarding their child's progress.

The Superintendent or designee shall ensure that administrators, teachers, and paraprofessionals in district preschool programs possess the appropriate permit(s) issued by the Commission on Teacher Credentialing, meet any additional qualifications established by the Board, and participate in professional development opportunities designed to continually enhance their knowledge and skills.

Preschool admissions policies and procedures shall be in writing and available to the public. Such policies and procedures shall include criteria designating those children whose needs can be met by the program and services, the ages of children who will be accepted, program activities, any supplementary services provided, any field trip provisions, any transportation arrangements, food service provisions, and a health examination requirement. (5 CCR 17743; 22 CCR 101218.1)

The Superintendent or designee shall ensure that subsidized preschool is provided to eligible families to the extent that state and/or federal funding is available and shall establish enrollment priorities in accordance with Education Code 8208, 8210, and 8211 and 5 CCR 17746-17748.

The Superintendent or designee shall recommend strategies to link the district's preschool program with other available child care and development programs in the district or community in order to assist families whose child care needs extend beyond the length of time that the district's preschool program is offered.

The Superintendent or designee shall ensure that the plan to provide access to full-day learning programs the year before kindergarten addresses the needs of preschool children and their families as specified in **BP Board Policy** 6170.1 - Transitional Kindergarten. (Education Code **8322 8281.5**)

The Superintendent or designee shall develop and implement an annual plan of evaluation which conforms to state requirements. (5 CCR 17709-17711)

The district's uniform complaint procedures, with modifications as necessary, shall be used to investigate and resolve complaints alleging violation of applicable health or safety requirements for license-exempt programs operating under the CSPP. However, licensed programs shall refer complaints alleging health and safety violations to the California Department of Social Services. (Education Code 8212; 5 CCR 4610, 4611, 4690-4694, 17781)

The Superintendent or designee shall regularly report to the Board regarding enrollment in district preschool programs and the effectiveness of the programs in preparing preschoolers for transition into the elementary education program.

Policy 6146.1: High School Graduation Requirements

Status: ADOPTED

Original Adopted Date: 12/01/2017 | Last Revised Date: 03/12/01/2023 | Last Reviewed Date: 03/12/01/2023

The Governing Board desires to prepare all students to successfully complete the high school course of study and obtain a diploma that represents their educational achievement and increases their opportunities for postsecondary education and employment.

District students shall complete graduation course requirements as specified in Education Code 51225.3. Unless exempted as provided in "Exemptions from District-Adopted Graduation Requirements," district students shall also complete other course requirements adopted by the Board. Students who are exempted from district-adopted graduation requirements shall be eligible to participate in any graduation ceremony and school activity related to graduation in which other students are eligible to participate.

Course Requirements

To obtain a high school diploma, students shall complete the following courses in grades 9-12, with each course being one year unless otherwise specified:

1. Four courses in English totaling 40 credits (Education Code 51225.3)
2. Two courses in mathematics totaling 20 credits (Education Code 51225.3)

Students shall complete at least one mathematics course that meets the state academic content standards for Algebra I or Mathematics I. Students may complete such coursework prior to grade 9 provided that they also complete two mathematics courses in grades 9-12. (Education Code 51224.5)

~~3.~~ Successful completion of an approved computer science course that is classified as a "category C" course based on the University of California (UC) and California State University (CSU) "A-G" admission requirements shall be counted toward the satisfaction of additional graduation requirements in mathematics. (Education Code 51225.3, 51225.35)

3. Two courses in science, including biological and physical sciences totaling 20 credits (Education Code 51225.3)
4. Three courses in social studies, including United States (U.S.) history and geography; world history, culture, and geography; a one-semester course in American government and civics; and a one-semester course in economics totaling 30 credits (Education Code 51225.3)
5. Five semesters/25 credits in visual or performing arts, world language, or career technical education (CTE). For purposes of this requirement, a course in American Sign Language shall be deemed a course in world language (Education Code 51225.3)

To be counted towards meeting graduation requirements, a CTE course shall be aligned to the CTE model curriculum standards and framework adopted by the State Board of

Education. (Education Code 51225.3)

6. Two courses in physical education, unless the student has been otherwise exempted pursuant to other sections of the Education Code (Education Code 51225.3)
7. Beginning with the 2029-30 school year, a one-semester course in ethnic studies totalling 5 credits (Education Code 51225.3)
8. One semester/5 credits of health
9. Completion of 70 credits of elective credits

The minimum credits required to graduate is 230 credits.

Because the prescribed course of study may not accommodate the needs of some students, the Board shall provide alternative means for the completion of prescribed courses in accordance with law.

Exemptions from District-Adopted Graduation Requirements

~~Prior to the beginning of grade 10, the individualized education program (IEP) team for each student with disabilities shall determine whether the student is eligible for exemption from all coursework and other requirements adopted by the Board in addition to the statewide course requirements for high school graduation, and if so, shall notify the student's parent/guardian of the exemption. A student with disabilities shall be eligible for the exemption, if the student's IEP provides for both of the following requirements: (Education Code 51225.31)~~

- ~~1. That the student take the alternate assessment aligned to alternate achievement standards in grade 11 as described in Education Code 60640~~
- ~~2. That the student complete state standards aligned coursework to meet the statewide coursework specified in Education Code 51225.3~~

~~In addition a~~ A foster youth, student experiencing homelessness, former juvenile court school student, child of a military family, migrant student who transfers into the district or between district schools any time after completing the second year of high school, or ~~a newly arrived immigrant~~ **newcomer** student who is in the third or fourth year of high school ~~and is participating in a newcomer program~~ shall be exempted from any graduation requirements adopted by the Board that are in addition to statewide course requirements. This exemption shall not apply if the Superintendent or designee makes a finding that the student is reasonably able to complete the additional requirements in time to graduate by the end of the fourth year of high school.

Within 30 days of the transfer into a school by ~~a~~ **the** foster youth, student experiencing homelessness, former juvenile court school student, child of a military family, migrant student, or ~~a newly arrived immigrant student, or the commencement of participation in a newcomer program~~ **newcomer student**, as applicable, the Superintendent or designee shall notify any eligible student, and others as required by law, of the availability of the exemption from local graduation requirements and whether the student qualifies for it. (Education Code 51225.1)

The Superintendent or designee shall not require or request ~~a~~ **the** foster youth, student experiencing homelessness, former juvenile court school student, child of a military family, migrant

student, or a newly arrived immigrant student participating in a newcomer program student who is exempted from district-established graduation requirements and who completes the statewide coursework requirements before the end of the fourth year of high school, and would otherwise be entitled to remain in school, to graduate before the end of the student's fourth year of high school. (Education Code 51225.1)

If a the foster youth, student experiencing homelessness, former juvenile court school student, child of a military family, migrant student, or a newly arrived immigrant newcomer student participating in a newcomer program was not properly notified of an exemption, declined the exemption, or was not previously exempted, the student or the person holding the right to make student's educational decisions for the student rights holder may request the exemption and the Superintendent or designee shall exempt the student within 30 days of the request. Any such student who at one time qualified for the exemption may request the exemption even if the student is no longer eligible. (Education Code 51225.1)

Additionally, a student with disabilities shall be eligible for an exemption from all coursework and other requirements adopted by the Board in addition to the statewide course requirements for high school graduation, if the student's individualized education program (IEP) provides for both of the following requirements: (Education Code 51225.31)

1. That the student is eligible to take the alternate assessment as described in Education Code 60640
2. That the student complete state standards aligned coursework to meet the statewide coursework specified in Education Code 51225.3

The district's responsibility to provide a free appropriate public education shall not terminate when a student with a disability who is exempted from district- adopted graduation requirements participates in graduation activities unless the IEP team, which includes the parent/guardian and student, has determined that the student has completed the high school experience. (Education Code 51225.31)

Annually, the Superintendent or designee shall report to the California Department of Education, in accordance with Education Code 51225.1, the number of student's graduating from the fourth or fifth year of high school who, for the prior school year, graduated with an exemption from district-established graduation requirements that are in addition to statewide coursework requirements.

Retroactive Diplomas

Any student who completed grade 12 in the 2003-04 through 2014-15 school year and met all applicable graduation requirements other than the passage of the high school exit examination shall be granted a high school diploma. (Education Code 51413)

In addition, the district may retroactively grant high school diplomas to former students who: (Education Code 48204.4, 51430, 51440)

1. Departed California against their will while in grade 12 and did not receive a diploma because the departure interrupted their education, provided that they were in good

academic standing at the time of the departure

Persons may be considered to have departed California against their will if they were in custody of a government agency and were transferred to another state, were subject to a lawful order from a court or government agency that authorized their removal from California, were subject to a lawful order and were permitted to depart California before being removed from California pursuant to the lawful order, were removed or were permitted to depart voluntarily pursuant to the federal Immigration and Nationality Act, or departed due to other circumstances determined by the district that are consistent with the purposes of Education Code 48204.4.

In determining whether to award a diploma under these circumstances, the Superintendent or designee shall consider any coursework that may have been completed outside of the U.S. or through online or virtual courses.

2. Were interned by order of the federal government during World War II or are honorably discharged veterans of World War II, the Korean War, or the Vietnam War, provided that they were enrolled in a district high school immediately preceding the internment or military service and did not receive a diploma because their education was interrupted due to the internment or military service in those wars

Deceased former students who satisfy these conditions may be granted a retroactive diploma to be received by their next of kin.

3. Are veterans who entered the military service of the U.S. while in grade 12 and who had satisfactorily completed the first half of the work required for grade 12 in a district school
4. Are former members of the military, a resident of California, and received an honorable discharge, or, are current members of the military, a resident of California, and a resident of California when entering the military

In determining whether to award a diploma under these circumstances, the Superintendent or designee shall evaluate classes completed in any high school, community college, or state college, grant credit toward graduation for military service and training received while in the military, and if satisfied that the person has completed the equivalent of the requirements for graduation from high school, grant the person a diploma of graduation.

5. **4.** Were in their senior year of high school during the 2019-20 school year, were in good academic standing and on track to graduate at the end of the 2019-20 school year as of March 1, 2020, and were unable to complete the statewide graduation requirements as a result of the COVID-19 crisis

Honorary Diplomas

The Board may grant an honorary high school diploma to: (Education Code 51225.5)

1. An international exchange student who has not completed the course of study ordinarily required for graduation and who is returning to the student's home country following the completion of one academic school year in the district
2. A student who is terminally ill

The honorary diploma shall be clearly distinguishable from the regular diploma of graduation awarded by the district. (Education Code 51225.5)

Policy 6146.4: Differential Graduation And Competency Standards For Students With Disabilities Status: ADOPTED

Original Adopted Date: 11/01/1999 | Last Revised Date: 06/12/01/2023 | Last Reviewed Date: 06/12/01/2023

The Governing Board recognizes that students with disabilities are entitled to a course of study that provides them with a free appropriate public education (FAPE) and that modifications to the district's regular course may be needed on an individualized basis to provide FAPE. In accordance with law, each student's individualized education program (IEP) team shall determine the appropriate goals, as well as any appropriate individual accommodations necessary for measuring the academic achievement and functional performance of the student on state and districtwide assessments.

Exemption from District-Established Graduation Requirements

District students shall complete all course requirements for high school graduation as specified in Board Policy 6146.1 - High School Graduation Requirements. However, a student with a disability **that entered the ninth grade in the 2022-23 school year and later** may be exempted from all coursework and other requirements adopted by the Board that are in addition to the statewide course requirements for high school graduation if the student's IEP provides for both of the following requirements: (Education Code 51225.31).

1. That the student **is eligible to** take the alternate assessment **aligned to alternate achievement standards in grade 11** as described in Education Code 60640
2. That the student complete state standards aligned coursework to meet the statewide coursework specified in Education Code 51225.3

Prior to the beginning of grade 10, the IEP team for each student with a disability shall determine whether the student is eligible for the exemption, and if so, notify the student's parent/guardian of the exemption. (Education Code 51225.31)

Any such exempted student shall receive a diploma and be eligible to participate in any graduation ceremony and school activity related to graduation in which a student of similar age without a disability would be eligible to participate. (Education Code 51225.31)

The district's responsibility to provide FAPE shall not terminate when a student with a disability who is exempted from district-adopted graduation requirements participates in graduation activities unless the student's IEP team, which includes the parent/guardian and student, has determined that the student has completed the high school experience. (Education code 51225.31)

Certificate of Educational Achievement or Completion

Instead of a high school diploma, a student with a disability may be awarded a certificate or

document of educational achievement or completion if the student has met one of the following requirements: (Education Code 56390)

1. Satisfactorily completed a prescribed alternative course of study approved by the board of the district in which the student attended school or the district with jurisdiction over the student as identified in the student's IEP
2. Satisfactorily met the student's IEP goals and objectives during high school as determined by the IEP team
3. Satisfactorily attended high school, participated in the instruction as prescribed in the student's IEP, and met the objectives of the statement of transition services

A student with a disability who meets any of the criteria specified above shall be eligible to participate in any graduation ceremony and any school activity related to graduation in which a graduating student of similar age without disabilities would be eligible to participate. (Education Code 56391)
